

Project List

● Industrial Design

Medical

Ultrasound cart system
Ultrasound keyboard console
Ultrasound flat panel monitor
Cardiac imaging catheter
Cardiology transducer
General imaging transducer
Diabetes blood glucose monitoring device
Obesity treatment device
Breast reconstruction system
Emphysema treatment system
Deflectable and non-deflectable cardiac catheters

Industrial Products

Underground pipe and cable locating system

Scientific

Time-of-flight Mass spectrometer
Gas analyzer
Lock-In Amplifier
Pre-amplifier

Test and Measurement

LCR Meter
Spectrum Analyzer
Function Generator
Power Supply
Amplifier

Toys & Consumer

Talking book
Flexible building system
Sports scoring system

Telecommunications

Optical networking chassis
Portable tablet size network analyzer

● User Interface Design

Portable medical ultrasound user interface
Medical system for glaucoma treatment
Infant hearing screener user interface
Robotic catheter visual interface design
Scientific analyzer visual interface design
Vehicle control panel rapid prototype

● Human Factors

Medical touchscreen interface
Handheld device balance and control
Usability evaluations of medical devices
Anthropometric analyses of vehicle crewstations
JACK human modeling analyses

● Product Graphics

Medical ultrasound icons and body markers
Medical icon library
Logo design for Acuson AcuNav™ imaging catheter
Logo development
Product safety label design
Control panel graphics
Presentation graphics
